

honestech TVR 3.0

You will find "honestech" folder in the software CD. Please double click it and you can find two folders – Honestech TVR 3.0 and Drivers folders.

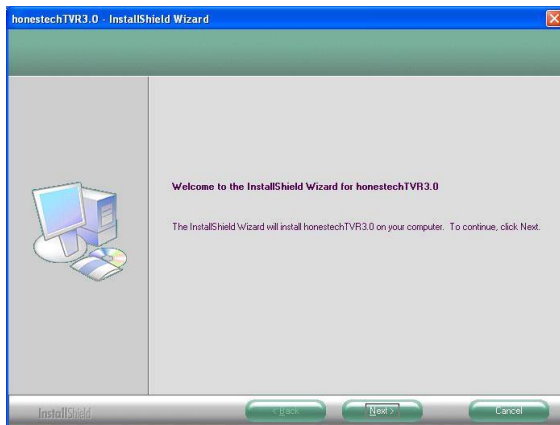

1. Honestech TVR3.0: this folder includes the Setup.exe file for TVR 3.0, please install it when you use it.
2. Drivers: There is a Setup.exe file for update the driver for DVB-T device, you must do it before running Honestech TVR 3.0 RTM, and otherwise the remote control may not work.

Note: After doing this, the remote control may not work for Blaze Video HDTV player which you have installed before. You can uninstall this driver and reinstall it from "Install Driver" of the CD Autorun interface.

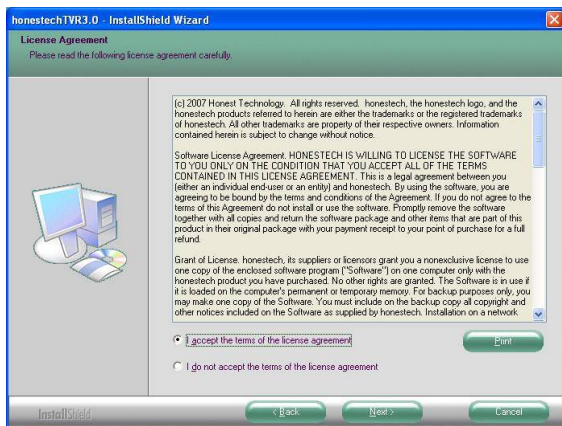

honestech TVR Installation

Insert the installation CD into your CD/DVD drive. Please open it, and find "honestech" folder. Open it and double click Setup.exe file to start installation.
